

Request for estimates

1. For the project “To reduce Curaçao’s plastic pollution in the marine environment by promoting innovative and creative recycling, public awareness, and education” carried out with funding from the Caribbean OCTs Resilience, Sustainable Energy and Marine Biodiversity Programme (RESEMBID), Green Phenix is planning to procure a machine to mill plastics.
2. Criteria: Machine must be able to mill the at least te following types of plastics: PET (#1), HDPE (#2) and PP (#5). Milling should result in granulate with, to choice, the following dimensions: 10, 35 and 70 mm. The power supply needs to be 220V, although 380V will be allowed. Quote should include set of relevant spare parts. Experience with supplying machinery to the Caribbean is required.
3. If you want to become the supplier, you should submit a quotation English before December 2nd 2022.
4. Questions can be emailed to info@greenphenix.com or send by Whatsapp to +599 9 524 6643
